[The dies for the above piece were made by Mr. Lovett, of Philadelphia, in 1861. Mr. Lovett says that they were ordered in 1861, for the South, and that the dies were delivered. Previous to delivering the dies, he struck twelve pieces, but showed them to no one and kept the matter quiet, fearing

that he might be arrested if it were known. It was not until about six months since Mr. Lovett parted with all he had (either ten or twelve) to Dr. E. Maris, of Philadelphia, from whom this one was obtained. Although it is evident that the Southern Confederacy did not adopt this piece, still it will always be considered interesting and valuable as the only coinage designed for the Southern Confederacy, and will no doubt bring a high price. I have been somewhat particular in giving the facts about this piece, as there are persons who always sneer at and doubt anything new and interesting that is discovered by other than themselves. J. W. H.]
